COMMUNITY HEALTH NEEDS ASSESSMENT (CHNA) 2016-2018

Conducting a CHNA is a required component of the Affordable Care Act and serves as a way to evaluate the overall health of the community. The assessment identifies recurring causes of poor health then focuses resources to support and drive positive change in the identified behaviors. Focus areas for the 2016 CHNA include:

Vanderburgh County

Behavioral Health

Maternal, Infant, Fetal and Children's Health

Exercise, Nutrition and Weight

Warrick County

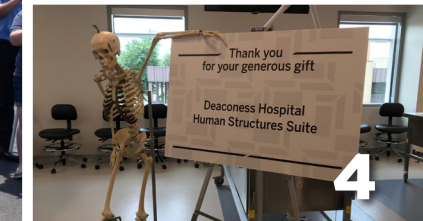

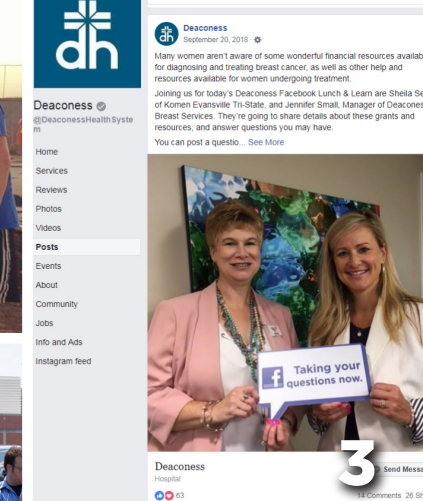

Behavioral Health

Cancer (Breast and Prostate)

Exercise, Nutrition and Weight

▲ 1. Deaconess employees helped build Mickey's Kingdom; 2. EMS celebration and mayoral proclamation of EMS Day; 3. Facebook Lunch and Learn about breast cancer featuring Komen Evansville and the Deaconess Breast Center; 4. The Human Structures Suite inside the Stone Family Center for Health Sciences provides hands-on anatomy lessons;

THE FOLLOWING ARE EXAMPLES OF PROGRESS MADE DURING FY18 RELATED TO THE HEALTH NEEDS IDENTIFIED IN THE 2016 CHNA.

Youth Mental Health First Aid Trainings

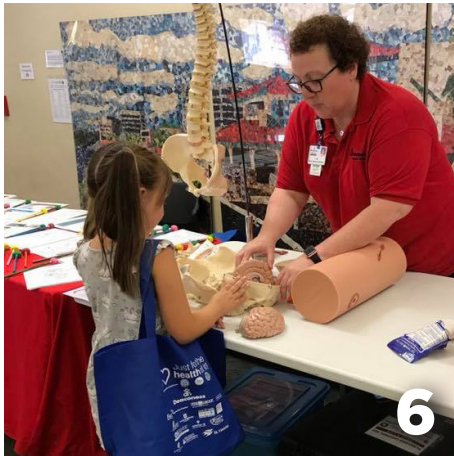

Fiscal year 2018 represented the final year of the three-year Southwestern Indiana Project AWARE grant. During the life of the grant, the group's representatives

- Conducted 53 First Aider courses representing 448 hours of instruction
- Trained 922 adults as "First Aiders" and another 16 adults as instructors
- Made 1,880 youth referrals to mental health resources in the community

fit fare at the Fall Festival

promoting healthy food options.

Growing awareness for men's cancers

Thanks for your submissions!

Working Together to Address Substance Use Disorders

To address the high number of drug-related health issues and deaths, Deaconess actively participates in the Mayor's Substance Abuse Task Force and the Vanderburgh County Health Department's Opioid Fatality Review Committee. Both groups provide the opportunity to identify and investigate all aspects of drug addiction in our community. Additionally, The Women's Hospital partnered with Southwestern Behavioral Healthcare's Stepping Forward Transitional Residential Program to help pregnant women address and treat substance use disorders.

Cancer

Deaconess physicians from ENT, dermatology, and oncology provided free cancer screenings in FY18 with the following results:

- Low-dose CT scan for lung cancer: 7 newly-diagnosed lung cancers and 31 abnormal screenings requiring additional follow-up (imaging, tissue sampling, etc.)
- Skin cancer screening: 62 normal screenings with 22 patients recommended for follow-up with a dermatologist
- Head and neck cancer screening: 44 normal exams with 25 patients recommended for follow-up with a primary care physician or ENT

We provided 2,628 on-site mammograms using our Mobile Breast Center. Deaconess cancer experts also created blogs, social media videos, and community presentations to educate the public on prevention, early detection, and treatment for a variety of cancers.

The full 2016 CHNA and 2018 progress report can be found at www.deaconess.com/CHNA.

- ◀ 5. Wise Choice highlights healthier food options at the Fall Festival; 6. Deaconess Trauma Services taught people how to Stop the Bleed; 7. Employees like Chris P. participated in the United Way's annual Day of Caring; 8. During the holidays, hospital-based billing staff supported a family receiving CASA services; 9. Wise Choice booth; 10. Drs. Taylor, Moore, and Klink spoke about prostate cancer during an event at the Dream Car Museum; 11. No Shave November for men's cancers.
