Meet Our Family Medicine Residents

Hannah Musarra, DO **Class of 2025**

ABOUT ME

I grew up in Knoxville, Tennessee, and attended the University of Tennessee (Go Vols!) for my undergraduate degree in Biochemistry before attending medical school at VCOM-Carolinas in Spartanburg, South Carolina. My love of science and desire to serve my community were the driving forces behind my decision to seek medicine as my career path.

WHY CHOOSE DEACONESS?

I chose Deaconess for my residency training after spending a month rotating with the program during my fourth year of medical school. All the residents and faculty were extremely kind and supportive, and I knew I would receive great training here.

HOBBIES/INTERESTS

In my free time, I love to hike, bake, read mystery novels, play volleyball, spend time with my husband, and play with our dog, Pippin. I have never lived in Indiana, but I am excited to see what Evansville has to offer!
