Meet Our Family Medicine Residents

Todd Dunaway, DO **Class of 2025**

ABOUT ME

I'm from the great state of Utah, where I grew up with eight siblings in a house that had literal fights over who got seconds. I am the youngest of my siblings and the first physician. I attended BYU and received a bachelor's in Public Health. Pursuing medicine was a goal of mine ever since high school, and I was excited and nervous to move out to eastern Kentucky and attend the University of Pikeville College of Osteopathic Medicine.

WHY CHOOSE DEACONESS?

For my third year rotations I was privileged to rotate with Deaconess Hospital, and I quickly learned to not only love this gorgeous city, but I grew to love the people here as well. It was an easy choice for me when I was interviewed here, and I knew right away where I wanted to be. Besides the amazing location, the residency is one of the best in terms of quality and growth for its residents.

HOBBIES/INTERESTS

In my free time I enjoy working out, watching and playing sports, reading and playing video games with the boys.
