Meet Our Family Medicine Residents

Amanda Meier, DO **Class of 2024**

I was born in Evansville, IN, and raised across the river in Henderson, KY. I attended the University of Louisville (Go Cards!) for my Bachelor degrees in Chemistry and Psychology. I then went on to complete medical school at the Kentucky College of Osteopathic Medicine. I found my love for Family Medicine during my clinical rotation years, where I realized that the daily variety, paired with the lasting impact that can be made on patients' lives, lined up perfectly with how I saw myself as a future attending physician.

My specific interests in medicine include preventive care, procedures, and women's health. During my audition month, Deaconess' Family Medicine Residency displayed expertise in all of these areas, while also providing a positive environment for teaching and growth—both as an individual and a physician. The support and friendliness of the faculty and residents, educational opportunities, full-scope training, and diversity of patient population make this program a perfect fit for me. I am honored and excited to be a part of this team!

Outside of medicine, I am a self-proclaimed Harry Potter enthusiast and have a cat named Bellatrix. During my free time I enjoy board games, cooking, traveling, visiting theme parks, and indulging in my guilty pleasure: reality TV.
