Meet Our Family Medicine Residents

John Morrison, DO **Class of 2024**

Hello! My name is John Morrison. I was born and raised in Evansville, Indiana and I am honored to have the opportunity to attend Deaconess Family Medicine Residency in the town where I grew up. I attended Purdue University earning a bachelor's in Biology, Health and Disease and medical school at A.T. Still University in Kirksville, MO.

I chose Deaconess Family Medicine Residency because Deaconess is an excellent hospital system with a history of teaching well-rounded family medicine physicians in a family friendly program. I plan to practice in the tristate area upon residency completion. My dream is to practice family medicine in an outpatient setting possibly with some shifts in the hospital or urgent care.

I enjoy spending time with my wife and daughter, watching Purdue basketball, fishing, traveling, playing with my dog, and cooking.
