Meet Our Family Medicine Residents

Brooke Aljandali, DO Class of 2026

ABOUT ME

Hi, I'm Brooke! Originally from Kokomo, I made my way to Evansville for my undergraduate studies at UE (Go Aces!). While there, I earned my bachelors in biology, studied abroad in Mexico, England, and China, and met my now husband of six years! After graduation, we decided to stick around, and I spent two fulfilling years working at Deaconess as a pharmacy technician prior to attending medical school at Marian University. As a medical student, I fell in love with Family Medicine. In this specialty, I can practice a bit of everything while still focusing on areas I am most passionate about including obstetrics, gynecology, pediatrics, and global health. My last year of medical school, I completed two rotations abroad in Costa Rica and Bolivia, improving my Spanish language skills and understanding of global healthcare systems.

WHY CHOOSE DEACONESS?

When it came to choosing a residency program, Deaconess Family Medicine Residency was an easy choice for me. It is unopposed, provides quality broad-spectrum training including ample experience in obstetrics and gynecology, has a great culture with supportive faculty and staff, and is close to home. I am so excited and honored to have the opportunity to serve the community in which I found love, pursued my education, and grew both personally and professionally. It is a true privilege.

HOBBIES/INTEREST

Outside of medicine, I love spending time with my hubby, family, and friends. My hobbies include horseback riding, rollerblading, thrifting and creative projects like interior design, photography, jewelry making, and graphic design. Any chance I get, I love to travel. Highlights from my trips including biking Death Road in Bolivia, visiting my husband's family in Qatar, and spotting a blue-footed booby in the Galapagos Islands.
